

Families for Families

The Power of Children Helping Children

FAMILIES FOR FAMILIES ASKS OTTAWA TO JOIN THEM IN THEIR EFFORTS TO PROVIDE PREFABRICATED SHELTERS TO THE PEOPLE OF HAITI.

The world is devastated and saddened by the recent earthquake that has hit Haiti.

One small local Kanata group wants you to join them in their plight to make a difference. **Families for Families is a not-for-profit organization** comprised of students, teachers and parents, whose fund raising efforts over the past year have focused on providing shelters to displaced people around the world.

The groundwork and partnerships to-date by **Families for Families** could not be more timely than now. Established partnerships with organizations such as **HousAll Systems** and the **International NGO, Partners In Health**, place **Families for Families** in the unique position to take in and use whole donations for the purpose of purchasing and distributing prefabricated HousAll Systems shelters to Haitians in need.

For more information on making donations to Families for Families Earthquake relief, please visit **The Greenwoods Academy website.**
